### **1 Nature of operations**

Cleghorn Minerals Ltd., incorporated on February 16, 2010 under the Business Corporations Act of British Columbia (the "Company") is involved in the process of exploring, evaluating and promoting its mineral property and other projects. The head office of the Company is located at 152 Chemin de la Mine École, Val d'Or, Québec, Canada. The Company's registered and records office is located at #1810 - 1111 West Georgia Street, Vancouver, B.C. V6E 4M3. The Company also has exploration offices located at 2864 Chemin Sullivan, Val-D'Or, Quebec, J9P 0B9.

The Company's shares, which are listed on the TSX Venture Exchange ("TSX-V"), are trading under the symbol "CZZ".

### **2 Going concern uncertainty**

These interim condensed financial statements have been prepared on a going concern basis, which presumes the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business for the foreseeable future. The use of these principles may not be appropriate. The Company is in its early stages, and as is common with similar companies, it raises financing for its exploration and evaluation activities. During the three-month period ended June 30, 2024, the Company incurred a net loss and comprehensive loss of \$52,520 (for the year ended March 31, 2024 – \$140,004) and has an accumulated deficit of \$3,136,109 (for the year ended March 31, 2024 – \$3,083,589). To date, the Company has financed its cash requirements primarily by issuing common shares or units. The Company's ability to continue as a going concern is subject to its ability to raise additional financing or reduce its expenditure levels. The Company's discretionary activities do have some scope for flexibility in terms of the amount and timing of expenditures, and to a certain extent, expenditures may be adjusted accordingly.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period. Management has assessed its liquidity needs and estimates that these funds will not be sufficient to meet the Company's obligations, budgeted expenditures and commitments through June 30, 2024. Based on the extent of the Company's current stage and anticipated plan, the Company will need to raise additional financing within the next 9 months, and those facts cast significant doubt on the Company's ability to continue as a going concern. While Management has been successful in securing financing in the past, there can be no assurance it will be able to do so in the future, that such sources of funding will be available to the Company or that they will be available on terms acceptable to the Company.

If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these financial statements.

These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

#### *Meech Lake Matachewan Prospect*

The Company owns a 100% interest in the Meech Lake Matachewan Prospect which consists of four (4) mining claims situated in the Argyle, McNeil and Robertson Townships, approximately 25 km Northwest of Matachewan, in Northeastern Ontario within the Abitibi Greenstone Belt. Following the MLAS claim to cell conversion process completed by Ontario's Ministry of Northern Development and Mines (MNDM), the four (4) original legacy claims were converted to 41 cells (36 single cells and 5 boundary cells), covering a total area of 833.6 hectares.

Three (3) of the original mining claims are subject to a 3% NSR on metals or minerals (iron, titanium, vanadium, gold, silver, copper, zinc and any and all other minerals or elements) produced from the property. The Company shall be entitled to repurchase 0.5% of the NSR, leaving the vendor with a 2.5% NSR, by paying to the vendor \$1,000,000 and an additional 1%, leaving the vendor with a 1.5% NSR, by paying the vendor an additional \$3,000,000.

As part of a funding and royalty agreement signed with Ontario Exploration Corporation, the Company granted a 0.5% NSR on its Meech Lake Matachewan Prospect.

The royalty agreement has a buyback clause which provides that the Company can purchase one-half of the 0.5% royalty for a dollar value that increases over time, ranging from a purchase price of \$15,000 before the second anniversary of the date of the agreement to a purchase price of \$250,000 from the 11th anniversary of the agreement and beyond.
